The Company will not be hosting a conference call to discuss these results.

### Third Quarter 2018 Results of Operations

#### *Net Revenues*

- Total net revenues were \$559.3 million, up 7.9% from \$518.4 million in the second quarter of 2018 and up 3.0% from \$543.0 million in the third quarter of 2017. This was due to increased shipment volume, which mitigated the effects of declining ASPs, and an increase in demand for the Company's premium product, the Q.PEAK DUO, which was associated to the Company increasing and expanding its sales network within key regions.

#### *Gross Profit and Margin*

- Gross loss in the third quarter of 2018 was \$35.3 million, compared to a gross profit of \$72.6 million in the second quarter of 2018 and a gross profit of \$63.2 million in the third quarter of 2017. Excluding a \$108.2 million one-time loss associated with the discontinuation of the Company's China-based ingot manufacturing operations in September, gross profit for the third quarter of 2018 was \$72.9 million. The Company concluded that it would be in its best interest to discontinue unprofitable operations and focus on its core business – the manufacturing of cells and modules. This decision was based on the fact that the current scale of ingot operations would preclude the Company from being competitive on a global scale, and while the discontinuation of ingot production resulted in a one-time loss, the Company believes it will improve long-term profitability by allowing us to focus its core competencies.
- Gross margin in the third quarter of 2018 was -6.3%, compared with 14.0% in the second quarter of 2018 and 11.6% in the third quarter of 2017. Excluding the one-time effects related to the discontinuation of ingot manufacturing operations, gross margin for the third quarter of 2018 was 13.0%.

#### *Results of Operations and Operating Margin*

- Loss from operations in the third quarter of 2018 was \$107.0 million, compared with income from operations of \$4.8 million in the second quarter of 2018 and \$10.6 million in the third quarter of 2017. Excluding the one-time effects related to the discontinuation of ingot manufacturing operations as well as a \$16.7 million allowance for bad debt on certain overdue receivables, operating income for the third quarter of 2018 was \$17.9 million.
  - Operating margin in the third quarter of 2018 was -19.1%, compared with 0.9% in the second quarter of 2018 and 2.0% in the third quarter of 2017. Excluding the one-time effects related to the discontinuation of ingot manufacturing operations and to certain overdue receivables, operating margin for the third quarter of 2018 was 3.2%.
  - Total operating expenses were \$71.7 million in the third quarter of 2018, up 5.8% from \$67.8 million in the second quarter of 2018 and up 36.3% from \$52.6 million in the third quarter of 2017. Excluding the one-time effects related to certain overdue receivables, total operating expenses for the third quarter of 2018 were \$55.0 million.
  - Selling and marketing expenses were \$37.5 million in the third quarter of 2018, down 10.7% from \$42.0 million in the second quarter of 2018 and up 22.5% from \$30.6 million in the third quarter of 2017.
  - General and administrative expenses were \$30.0 million in the third quarter of 2018, up 42.9% from \$21.0 million in the second quarter of 2018 and up 72.4% from \$17.4 million in the third quarter of 2017. Excluding the one-time effects related to certain overdue receivables, general and administrative expenses for the third quarter of 2018 were \$13.3 million.
  - Research and development expenses were \$4.2 million in the third quarter of 2018, down 12.5% from \$4.8 million in the second quarter of 2018 and down 8.7% from \$4.6 million in the third quarter of 2017.
-

#### *Net Interest Expense*

- Net interest expense was \$14.1 million in the third quarter of 2018, compared with \$15.2 million in the second quarter of 2018 and \$10.0 million in the third quarter of 2017.

#### *Foreign Currency Exchange Gain (Loss)*

- Foreign currency exchange loss was \$42.4 million in the third quarter of 2018, compared with a loss of \$37.8 million in the second quarter of 2018 and a gain of \$7.3 million in the third quarter of 2017. This was mainly due to a weak Turkish lira in relation to the U.S. dollar, causing a foreign currency exchange loss both in the second and third quarters.

#### *Gain (loss) on Change in Fair Value of Derivative Contracts*

- Loss on change in fair value of derivative contracts was \$0.9 million in the third quarter of 2018, compared to a gain of \$8.1 million in the second quarter of 2018 and a loss of \$0.6 million in the third quarter of 2017.

Excluding certain one-time effects, net loss attributable to the Company's ordinary shareholders for the third quarter of 2018 was \$39.7 million. Excluding these one-time effects as well as foreign exchange losses, net income attributable to Company's ordinary shareholders for the third quarter of 2018 was \$2.7 million.

Excluding certain one-time effects, loss per fully diluted American Depositary Share for the third quarter of 2018 was \$0.48.
